Description:

BKV Group seeks a talented Senior Electrical Engineer with 10-15 years of related experience to join our Minneapolis, MN office in North Loop. The candidate must have engineering experience in all aspects of design and documentation with leading edge multi-family housing, commercial and local government clients. This position represents the Engineering discipline in the current and future service development process and programs to serve the firm's clients

- Meet with BKV Group clients to review owner engineering needs and prepare options for owner review and direction.
- Analyzes the design requirements, specifications, and performance requirements to determine the best and most appropriate designs to meet customer expectations, code requirements, and all life and safety considerations.
- Determines feasibility of designing new facility engineering systems or modifying existing systems considering cost, available space, time limitations, company planning, and other technical factors.
- Provides technical information concerning advantages and limitations which affect long range facility and space planning.
- Confers openly and directly in a respectful and professional manner with other personnel to clarify or resolve problems and develop design.
- Prepares or directs preparation of calculations and designs for engineering systems and detailed drawings.
- Compiles and analyzes operation, test, and research data to establish performance standards for newly designed or modified designs.
- Provides leadership and work direction for Engineers in Training, Junior Engineers, and Designers working on assigned projects.
- Signs and seals engineering plans and specifications for assigned projects.
- Responsible for discipline budgets on assigned projects.
- Perform the necessary disciplinary work on assigned projects.

- Maintains appropriate records and files on assigned projects.
- Maintains a free flow of communications with the Partner-In-Charge and the Project Manager, as well as other Firm members relative to the activities on assigned projects.
- Responsible for the design process coordination of the engineering discipline with other discipline leaders.
- Responsible for the technical accuracy and completeness of the engineering documentation for assigned projects.

Qualifications:

- Professional degree in engineering
- Professional registration
- Experience with Revit and Microsoft Office Suite
- LEED AP optional
- Must have the ability to effectively present information and respond to questions from managers, clients, and the general public.

With excellent benefits, competitive salaries and constant opportunities for growth, BKV Group gives you the tools to realize your creativity. If you have an interest in working with a diverse group of talented engineers and designers, creating exciting environments, enjoy collaboration and challenges, we'd like to talk with you. Please submit your resume and cover letter. Please indicate your desired position and location.
